Re: AT&T Corp. Petition for Declaratory Ruling Regarding Enhanced Prepaid Calling Card Services, WC Docket No. 03-133

Dear Ms. Dortch:

On January 11, 2005, James Olson and I, on behalf of the United States Telecom Association, Richard Juhnke on behalf of Sprint Corporation, Tina Pidgeon on behalf of General Communication, Inc., and Jim Rowe on behalf of the Alaska Telephone Association, met with Scott Bergmann, Legal Advisor to Commissioner Jonathan Adelstein, regarding the above-referenced proceeding. The purpose of this meeting was to urge the Commission to find that AT&T's prepaid calling card service is a telecommunications service and that calls made using the service can be either interstate or intrastate in nature. The group also argued that there is no basis for excusing AT&T from paying, prospectively or retrospectively, intrastate access charges to carriers for intrastate calls made using the service and contributions to the Universal Service Fund on the interstate revenue derived from calls made using the service. In accordance with Section 1.1206(b)(2) of the Commission's rules, this letter is being filed electronically with your office.

Please feel free to contact me if you have any questions.

Sincerely,
